BATTERY POWERED CARS EXHIBITION

The Exhibitor company _____

that will participate in the exhibition _____ Hall ____ Stand ____

DECLARES

1. In the case of exhibiting any electric or hybrid vehicles, that the items on display have undergone periodic inspections carried out by competent personnel and are in excellent maintenance condition.
2. To be aware that the Exhibition premises are classified— from a system perspective— as high-risk in case of fire, and that it is strictly forbidden to produce explosive atmospheres of any kind. Therefore, the company is aware that the recharging of electric vehicles with state-of-the-art, completely sealed batteries is only allowed during daylight hours and with pavilions open for the necessary time required for the demonstration activity.
3. That at the end of each exhibition day, our company will disconnect the charging from the power supply network, with all costs and responsibilities borne by us.
4. That the installations will be carried out in compliance with the above indications and with all specific regulations related to the classification of the premises mentioned above.
5. Regarding any potential noise pollution or emission of chemical, physical, or biological agents, in any way connected to the use or products of the machine, the instructions set forth in the Technical Regulation of the Exhibition, already in your possession, will be followed.

These provisions may be supplemented with others deemed necessary by BolognaFiere S.p.A. and by our appointed technician, to ensure safety in compliance with Legislative Decree No. 81/2008 – Consolidated Act on Health and Safety at Work, integrated with Legislative Decree No. 106 of 2009. It is understood that the General Terms and Conditions of Participation remain valid.

Our company expressly EXEMPTS BolognaFiere S.p.A. and its staff, as well as the Organization of the event, from any liability arising from possible injuries or damages caused by non-compliance or violation of current safety regulations by the exhibited equipment.

The right of direct intervention by BolognaFiere S.p.A. remains reserved, to order the suspension of demonstrations or to arrange for the removal from the Exhibition premises of machines, equipment, structures, and components that do not comply with the above provisions.

The Exhibitor company _____

that will participate in the exhibition _____ Hall ____ Stand ____

DECLARES FOR DEMONSTRATIONS AND MOVEMENT OF MACHINES THAT:

1. During the demonstrations of the machines and safety components, the exhibiting company will take appropriate safety measures to ensure the protection of people. In this regard, all necessary measures will be taken to safeguard people, including:

a) Demarcation of the machine movement areas to ensure that the visiting public is adequately and effectively protected in compliance with Legislative Decree No. 81/2008 Unified Health and Safety at Work Act, integrated with Legislative Decree No. 106 of 2009. This precaution must be implemented even if the machines comply with the Machinery Directive 2006/42/EC.

b) Demonstrations and related activities must be carried out by a qualified technician appointed by the exhibiting company, who will provide instructions to all persons present in any capacity to be followed.

2. The exhibiting company of machines or safety components that do not comply with the MACHINERY DIRECTIVE 2006/42/EC will display and present those machines and components with an appropriate sign indicating the non-compliance with the Machinery Directive 2006/42/EC and therefore the impossibility of purchasing them before they are made compliant by the manufacturer or its representative established in the community territory.

3. Regarding potential noise pollution or emissions of chemical, physical, or biological agents in any way connected to the use or products of the machine, the indications reported in the Technical Regulations of the Event already in your possession will be observed.

In particular, the company declares that the exhibited machines will not be operated unless a written waiver is granted by the Operations Division of Bologna Fiere, provided this does not pose any danger or nuisance. In such cases, the machines must be equipped with the necessary devices to prevent accidents, noise, unpleasant odors, and the emission of gases and liquids.

To limit noise in the exhibition environments, including near operating machinery, and therefore maintain an acceptable acoustic quality in the spaces intended for the fair, only machinery or other installations with a sound power level below 88 dB will be allowed.

These provisions may be integrated with other measures deemed necessary by Bologna Fiere S.p.A. and our appointed technician to ensure safety in compliance with Legislative Decree No. 81/2008 - Unified Health and Safety at Work Act, integrated with Legislative Decree No. 106 of 2009. The provisions of the General Participation Conditions remain valid.

Our company EXPRESSLY EXEMPTS Bologna Fiere S.p.A. and its personnel, as well as the event organization, from any liability arising from possible accidents or damages caused by non-compliance or violation of current safety regulations by the exhibited equipment.

Bologna Fiere S.p.A. reserves the right to directly intervene to suspend demonstrations or remove from the Exhibition Center any machines, equipment, structures, and components not complying with the above provisions.
